

# 50K times, we say thank you!

This is a milestone, and we are celebrating it! Now, over 50K of us are part of the HPE Engage&Grow community on LinkedIn.

To say “thank you” to our community and leverage the momentum, on **Monday, November 28<sup>th</sup>** we will be launching the 50K Celebration where the participants will be able to **win up to \$60 USD Amazon Gift Cards!**

## Who can participate?

All HPE employees, Distributors and Partners are eligible to enter this celebration and win the stipulated prizes.

## How to win?

The Amazon gift card contest applies only to posts made between November 1st and December 31st of 2022, or while supplies last. An Amazon gift card, worth 40 USD, will be sent to each person who completes steps 1 and 2. An additional Amazon gift card, worth 20 USD, will be sent upon completion of step 3.

Publish the 3 posts corresponding to the dynamic on your personal profile (not company's) on LinkedIn.

### How?

- Access the **HPEFlexOffers.com** website.
- Download the social media pack which includes 3 images and the copy (description or caption) corresponding to each one.
- Publish the 3 posts on your personal profile. You may edit the copy as desired to match your page's specific voice and personality. Make sure to include the #hashtags as well.  
(#hpeengageandgrow #HPEFlexOffers #WeareHPESMB #HPE50kCelebration)
- Record the video of the challenge, nominating 2 additional people to participate and tagging them in the post. (Video challenge details on the “copy for posts” document)

Once the 4 posts have been published, it is mandatory to register the participation with via the final links in this form: **Submission Form #1**

If those who are nominated participate and complete the challenge, their participation must be registered in this form and must include the final links to their videos: **Submission Form #2**

If the forms are not filled out with the information required in each Microsoft Form, the participation will not be considered to receive the Amazon gift cards. **Posts need to be public.** Meaning that they are configured so that anyone can see them and react.
